1	Initial Meeting & Project Planning														
2	Literature Review														
3	Pose Detection Research/ developing pose de														
4	Collecting real life training data														
5	Researching annotation tools														
6	Annotating with CVAT														
7	Developing merging tool														
8	Merging annotations with extracted poses														
9	Researching ML algorithims														
10	Developing Algorithims/ training														
11	Evaluation/ testing Algorithim														
12	Research game ragdolls/ mods														
20	First Presentation														
13	Collecting GTA V fall data														
14	Extracting pose landmarks/ annotating GTA V														
16	Compiling new dataset														
15	Retraining Model														
17	Evaluation/ testing new model														
23	Testing model on external videos														
24	Testing model on live camera														
18	Debugging and fixing issues with model														
22	Developing prototype														
21	Creating GUI for prototype														
19	Final Presentation
